Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claim 6 is rejected under 35 U.S.C. 102(e) as being anticipated by Munjal U.S. Patent 5,936,605.
3. Regarding claim 6, Munjal discloses an arrangement for decoding a predetermined code word comprising a processor having a CPU 62, memory 64, an input/output interface and a data bus, as shown in Figure 2, where the processor is considered to be capable of being programmed to carry out the method according to claim 1.

Allowable Subject Matter

4. Claims 1-5 are allowed.
5. The following is a statement of reasons for the indication of allowable subject matter:

The prior art of record fails to teach a method for decoding a predetermined code word according where a calculation rule for a soft-output value is determined, each position of the code word being correlated with the soft-output value according to equation (1), weights are calculated according to equation (79), mappings are determined according to equations (3) and (5), and positions of the code word are determined according to equation (8).
